

NEW CONVEYOR APPLICATION

Belt selection for new equipment - fill in what you know.

Complete only what you know. Unknown details can stay blank.

This form can be used on its own. PFM will help confirm suitable belt specifications.

01 How can we reach you?

Contact name / company (company optional)

Email or WhatsApp number - one is enough

02 Product & process

Product being conveyed (e.g. biscuits, parts)

Process (e.g. baking, cooling, washing)

Product size L x W x H (mm); smallest item

Product load (kg per metre of loaded belt)

Product temperature on belt (°C)

Min / max belt operating temperature (°C)

03 Conveyor layout & operation

Required overall belt width (mm)

Conveyor conveying length (m) - see note

Conveying length follows the carrying path; total belt length includes the return run.

Conveyor layout

Vertical rise / fall (mm), if inclined

Belt speed or speed range (m/min)

Drive arrangement, if known

04 Belt preferences & extra details (optional)

Preferred belt structure - select only if known

Belt material preference

Support / wear strip material, if known

Other details: material grade, drive size, cleaning, chemicals, attachments or order needs

Send this form and a route sketch to wirebelt@pfmscreen.com or WhatsApp +86-153-6967-9157.
